

14:R2138

20 November 1967

**SECRET**

DDCI MEETING

6. Advised that Representatives Henderson and Gross will not be out this week and we will reinstitute negotiations for their visit to the Agency next week.

7. Mentioned the so-called "High Risk" bill that has passed the Senate with the House amendments which will authorize the equivalent of two trips to Washington, D. C. for employees whose dependents are [redacted]. This substantially relieves the problem created by the Senate version which would have limited such trips to two a year.

9. Mr. Warner indicated that the Rodino bill appears to be in good shape in the Senate with Eastland promising to clear this through his Committee which would normally mean automatic approval by the Senate.
